Your results will be listed as variations of...

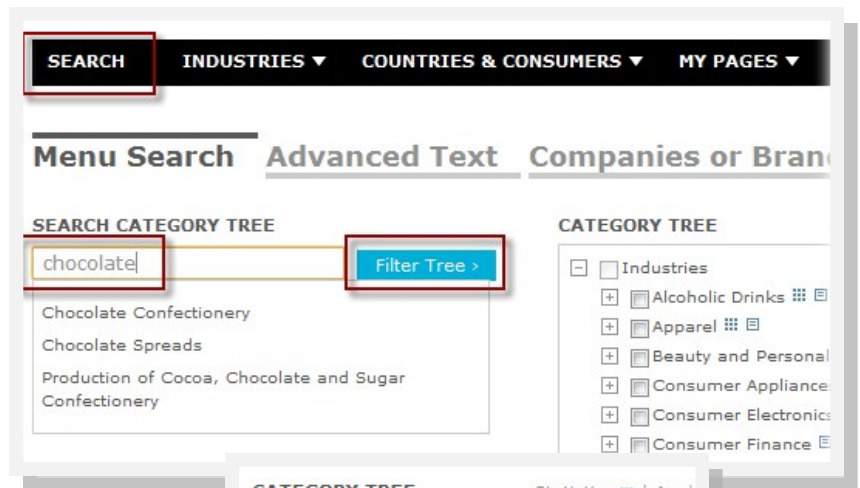

For example:

Country Pulse – up-to-date issues affecting local consumers in a given country.

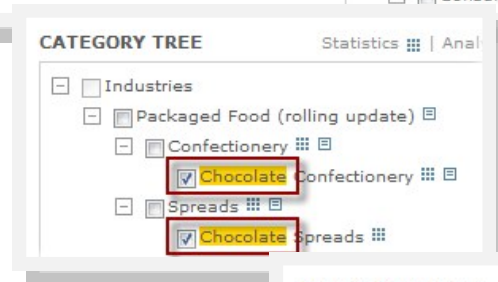

Statistics – tables allowing you to compare statistics from different countries. Manipulate this data using the numerous options available, like adding another country, or looking at the year-on-year growth.

Menu Search

Select the **Search** option, start entering your search terms or keywords, select a search suggestion if appropriate, and click on “**Filter Tree >**”.

From the resulting **Category Tree**, check the options you want to include in your search, and click on **Now Choose Geographies >**

Select the countries you are interested in from the **Geography Tree** and click on **Run Search >** to start the menu search. This search will allow you to find information on your topic in the countries of your choice. You will also be able to **compare statistics** across the different countries – but don't forget to change the currencies from the local currencies to a single currency of your choice to make the comparison easier.

Browsing GMID

Select an **Industry** or **Country & Consumer** to see the drop down browse lists. Once you have made your selection, you can narrow the search by using the options provided.

Printing & Saving Options
